let's get it done

For information: With our current introductory interest rate for the Flexible Saver (Issue 3), accounts opened after 7 December 2007 can get 6.27% gross p.a. fixed for the first six months, 5.98% AER for the first year. The standard variable rate that applies after the first six months is currently 5.50% AER (5.39% gross p.a.). This is also the rate that is available to customers who are not eligible to receive the introductory rate. The introductory rate is only available for new Citibank International plc customers and is available to existing Citibank customers if one of our other eligible products and they have not already benefited from an introductory rate in relation to Flexible Saver (Issue 3) or any other issue of Flexible Saver through holding product. Interest is paid on balances up to £1 million. The underlying interest rate is variable and subject to change but cannot at the time of going to print. Some conditions apply to the contractual rate of interest payable before the deduction of income tax at the rate specified by law. AER stands for the Annual Equivalent Rate and is a national rate that reflects the contractual interest rate available if interest was paid and compounded on an annual basis. Interest is credited and compounded monthly. This introductory rate offer may be available at any time. To improve our service and for banking purposes, we may involve and receive your phone calls with us.
